JEOBROWSER

Interoperability and value added to Earth Observation data
Introduction

Interoperability - Why?

Technical view

Economical view

Political view

Practical interoperability

jeobrowser
Interoperability
Ability of a system or a product to work with other systems or products without special effort on the part of the customer
Compatibility
De facto standard
Interoperability
Three essential point of views
Technical view

To simplify data access
Economical view

To get in the Geographical Web
Political view

To build an European Spatial Infrastructure
Infrastructure for Spatial Information in the European Community
Global Monitoring for Environment and Security
Provide Europe with an autonomous and operational capacity for Earth Observation
Emergency Response (SAFER)

Security (G-MOSAIC)

Atmosphere Monitoring (MACC)

Ocean Monitoring (My Ocean)

Land Monitoring (Geoland 2)
Heterogeneous Mission Accessibility
Practical interoperability
